One focus: discovering and delivering breakthrough medicines to combat cancer.

Millennium: The Takeda Oncology Company is developing an extensive pipeline in oncology worldwide with more than 17 compounds in development for a broad range of solid and haematological cancers.

Our pipeline — rich in novel compounds — includes multiple candidates that target seven disease pathways: protein homeostasis, anti-angiogenesis, growth-signaling inhibition, cell-cycle inhibition, apoptosis, hormone regulation and immunomodulation.

We are dedicated to a strong partnership with the oncology community. Together we can make a dramatic impact on cancer therapeutics over the next decade.
submissions

A subscription to *Annals of Oncology* comprises 12 issues plus supplements in each volume. Prices include postage, and for subscribers outside the UK delivery is by Standard Air.
